**DECLARATION OF
JESSE SCHAFFER**

08 CV 01335 (LTS) (TDK)

JESSE SCHAFFER, under penalty of perjury, declares pursuant to 28 U.S.C. § 1746 that the following is true and correct:

1. I am the Director of the Doing Business Accountability Project at the Mayor's Office of Contract Services ("MOCS"). My responsibilities include overseeing the creation and administration of the "Doing Business Database" that was developed in order to implement the new campaign contribution limit and non-matching fund provisions that apply to individuals considered to have "business dealings with the City" under the Campaign Finance Act ("CFA"), as amended by Local Laws 34 and 67 of 2007 ("doing business provisions"). Among other things, my responsibilities include developing policy with respect to implementing the Database requirements of the law; ensuring that training is provided to appropriate officials at all covered agencies; and ensuring that data required in order to implement the law is properly collected.

2. Part I of this declaration discusses how "business dealings with the city" ("business dealings") is defined in the CFA. Part II discusses the Doing Business Database. Finally, Part III provides data concerning entities that have contracts, franchises or concessions that fall within the "business dealings" definition.

I. Definition of “Business Dealings with the City”

3. The doing business provisions include lower contribution limits and non-matching of contributions for certain individuals who have “business dealings with the city” as defined in the CFA. (I am advised that these provisions are described in greater detail in a declaration submitted by Amy Loprest.)

4. The phrase “business dealings with the city” (“business dealings”) is defined to include certain transactions that fall into the following categories: (i) contracts for the procurement of goods, services and construction, including contracts for the underwriting of the City’s debt and debt-related contracts; (ii) concessions and franchises; (iii) grants; (iv) economic development agreements; (v) contracts for the investment of pension funds; (vi) real property acquisitions or dispositions; and (vii) applications for land use approvals or zoning text amendments. Additionally, there are separate rules concerning “actions, transactions and agreements providing affordable housing.” Finally, lobbyists are deemed to be engaged in business dealings with the city. See Administrative Code of the City of New York (“Admin. Code”) § 3-702(18).

5. The transactions covered include those with the City of New York, and agencies or entities “affiliated with the City of New York.” Agencies or entities that are considered “affiliated with the City of New York” (“affiliated entities”) include “the city school district of the city of New York and any public authority, public benefit corporation or not for profit corporation, the majority of whose board members are officials of the city of New York or are appointed by such officials.” Admin. Code § 3-702(18).

6. The doing business provisions do not apply to organizations. They apply to a “natural person” who fits in one of the following categories for an entity that has business dealings with the City or an affiliated agency: “any chief executive officer, chief financial officer and/or chief operating officer of such entity or persons serving in an equivalent capacity, any person employed in a senior managerial capacity regarding such entity, or any person with an interest in such entity which exceeds ten percent of the entity.” Admin. Code §§ 3-702(20), 3-703(1-a), 3-719(2)(b). The CFA defines “senior managerial capacity” to include “high level supervisory capacity, either by virtue of title or duties, in which substantial discretion and oversight is exercised over the solicitation, letting or administration of business transactions with the city, including contracts, franchises, concessions, grants, economic development agreements and applications for land use approvals.” Id. § 3-702(20). Additionally, the doing business provisions apply to individuals who are “lobbyists” as defined in section 3-211 of the Administrative Code. Id. §§ 3-702(18), 3-703(1-a), 3-719(2)(b).

7. Each of the “business dealing” categories is described in more detail below.

A. Procurement Contracts

8. The “business dealings” definition includes contracts with City agencies or affiliated entities that meet the following description:

any contract (other than an emergency contract or a contract procured through publicly-advertised competitive sealed bidding) which is for the procurement of goods, services or construction that is entered into or in effect with the city of New York or any agency or entity affiliated with the city of New York and is valued at or above the dollar value defined in subparagraph (a) of paragraph (3) of subdivision i of section 6-116.2 of the administrative code, or, with respect to a contract for construction, at or above five hundred thousand dollars, or an emergency contract awarded pursuant to section 315 of the charter,¹ and shall include any contract for the underwriting of the

¹ The second reference to emergency contracts is an apparent drafting error that resulted when the Local Law 34 language was changed in Local Law 67. Local Law 34 excluded emergency contracts from the “business dealings” definition. Local Law 67 added the first reference to the emergency contract

debt of the city of New York or any agency or entity affiliated with the city of New York and the retention of any bond counsel, disclosure counsel or underwriter's counsel in connection therewith.

Administrative Code § 3-702(18)(a)(i). Contracts valued at \$5,000 or less are excluded from any calculation of “business dealings.” Id. § 3-702(18)(a). With respect to dollar value, procurement contracts for goods and services are considered to be “business dealings” if the combined total of all current goods or services contracts for the contractor and all goods or services contracts awarded to the contractor in the previous 12 months (other than emergency contracts or contracts procured through publicly-advertised competitive sealed bidding) amounts to \$100,000 or more. Procurement contracts for construction are considered to be “business dealings” if the combined total of all current construction contracts for the contractor and all construction contracts awarded to the contractor in the previous 12 months (other than emergency contracts or contracts procured through publicly-advertised competitive sealed bidding) amounts to \$500,000 or more.

9. All contracts for the procurement of goods, services and construction that meet these requirements are considered “business dealings” under the CFA, including any such contracts with unions or neighborhood associations.

10. Additionally, the CFA specifies timeframes for when covered contracts or bids and proposals on contracts are considered “business dealings.” Covered contracts are generally considered “business dealings” throughout the term of the contract, and for 12 months afterward. If the contract does not have a term, it is considered a “business dealing” for one year from the date of purchase and for twelve months afterward. If a contract award comes from a

exclusion, but left in language from Local Law 34 that, taken out of context, would suggest that emergency contracts are covered. We interpret the law as not covering emergency contracts.

line item budget appropriation, or from discretionary funds from an elected official other than the mayor or comptroller, the transaction is considered a “business dealing” from the date when the budget is adopted that includes the appropriation until 12 months after the end of the term of the contract. Administrative Code § 3-702(18)(b). Additionally, bids and proposals for procurement contracts are considered “business dealings” from the date when the bid or proposal is submitted or the date of the public advertisement for the contract opportunity (whichever is later) until one year after the date of the submission or advertisement. Id.

11. If a labor union or neighborhood association were to seek or be granted a contract for the procurement of goods, services or construction that met these requirements, the transaction would be considered a “business dealing” in the same way as any other procurement contract. The organization’s officers who meet the definition of “person” under the CFA would be subject to the doing business provisions.

12. I am advised that procurement contracts are discussed in more detail in a declaration submitted by Marla Simpson.

B. Concessions and Franchises

13. The “business dealings” definition also includes “any concession (other than a concession awarded through publicly-advertised competitive sealed bid) or any franchise from the city of New York or any agency or entity affiliated with the city of New York which has an estimated annual value at or above the dollar value defined in subparagraph (a) of paragraph (3) of subdivision i of section 6-116.2 of the administrative code.” Admin. Code § 3-702(18)(iv). With respect to dollar value, concessions are considered to be “business dealings” if the combined estimated annual value of all current concessions held by the concessionaire or awarded to the concessionaire in the past year (other than concessions awarded through publicly-

advertised competitive sealed bid) amounts to \$100,000 or more. Franchises are considered to be “business dealings” if the combined estimated annual value of all franchises awarded to the franchisee in the past year amounts to \$100,000 or more. As is true with procurement contracts, no franchises or concessions in the amount of \$5,000 or less are considered when calculating this aggregate total. See Admin. Code §§ 3-702(18).

14. Bids or proposals for franchises and concessions are considered “business dealings” from the time of their submission until one year afterward. Concessions are considered “business dealings” for their duration and one year afterward. Franchises are considered “business dealings” for the first year in which they are in effect and the first year after any renewal of the franchise. Admin. Code § 3-702(18)(b).

15. If a labor union or neighborhood association were to seek or be granted a concession or franchise that met these requirements, the transaction would be considered a “business dealing” in the same way as any other concession or franchise. The organization’s officers who meet the definition of “person” under the CFA would be subject to the doing business provisions.

16. I am advised that further detail concerning concessions and franchises is provided in a declaration submitted by Marla Simpson.

C. Grants

17. The “business dealings” definition also includes grants. Admin. Code § 3-702(18)(a)(v). Grants are considered to be “business dealings” if the combined total value of any grants awarded to the grantee in the past year amounts to \$100,000 or more. No grants in the amount of \$5,000 or less are considered when calculating this aggregate total. See Admin. Code § 3-702(18)(a).

18. Grants are considered “business dealings” for a period of one year after the grant is made. Admin. Code § 3-702(18)(b).

19. Grants to neighborhood associations or unions that meet these requirements would be considered “business dealings” under the CFA. The organizations’ officers who meet the definition of “person” under the CFA would be subject to the doing business provisions.

20. I am advised that grants are discussed in more detail in the declaration submitted by Marla Simpson.

D. Economic Development Agreements

21. The “business dealings” definition also includes “economic development agreements,” which are defined as “any contract or agreement in which financial incentives including, but not limited to, tax incentives, payments in lieu of taxes and financing are offered in return for the development, attraction or retention of business.” Admin. Code § 3-702(19). The CFA clarifies that the term does not include financial incentives “given to a person who qualifies for such incentive by operation of law.” Id.

22. Economic development agreements are considered “business dealings” from the time an application is submitted for an agreement until one year after the term of the agreement ends. Admin. Code § 3-702(18)(b).

23. If a union or neighborhood association held an economic development agreement as defined in the CFA, the agreement would be considered a “business dealing,” and the organization’s officers who meet the definition of “person” under the CFA would be subject to the doing business provisions.

E. Contracts for Investment of Pension Funds

24. The “business dealings” definition also includes “any contract for the investment of pension funds, including investments in a private equity firm and contracts with investment related consultants.” Admin. Code § 3-702(18).

25. These contracts, which are awarded by the Comptroller, are considered business dealings “from the time of presentation of investment opportunity or the submission of a proposal, whichever is earlier,” until one year after the end of the term of the contract. Admin. Code § 3-702(18)(b).

26. If any such contract were ever awarded to a labor union or neighborhood association, it would be considered a “business dealing” under the CFA, and the organization’s officers who meet the definition of “person” under the CFA would be subject to the doing business provisions.

F. Real Property Transactions

27. The “business dealings” definition also includes “any acquisition or disposition of real property (other than a public auction or competitive sealed bid transaction or the acquisition of property pursuant to the department of environmental protection watershed land acquisition program).” Admin. Code § 3-702(18)(a)(ii). I am advised that real property transactions that are subject to review and approval by the City Planning Commission are discussed in a declaration submitted by David Karnovsky.

28. If a union or neighborhood association were involved in a real property transaction that is covered under the CFA, the transaction would be treated as a “business dealing,” and the organization’s senior officials who meet the definition of “person” under the CFA would be subject to the doing business provisions.

G. Land Use Approvals, Zoning Text Amendments and Section 195 Approvals

29. The “business dealings” definition also includes certain requests for land use approvals and zoning text amendments pursuant to sections 197-c and 201 of the City Charter, as well as “any application for approval sought from the city of New York pursuant to the provisions of section 195 of the charter.” Admin. Code § 3-702(18)(a)(iii). I am advised that these processes are described in a declaration submitted by David Karnovsky.

H. Affordable Housing

30. The CFA requires that the Department of Housing Preservation and Development (“HPD”) issue rules identifying “which categories of actions, transactions and agreements providing affordable housing shall and shall not constitute” business dealings. Admin. Code § 3-702(18)(a). In making this determination, HPD is required to “consider the significance of the affordable housing program and the degree of discretion by city officials.” Id. HPD recently published proposed rules implementing this provision. The CFA makes clear that housing assistance payment contracts between landlords and HPD or the New York City Housing Authority relating to Section 8 rent subsidies (under Section 8 of the United States Housing Act of 1937) are not covered. Id.

I. Lobbyists

31. In addition to individuals associated with the transactions described above, lobbyists (as defined in section 3-211 of the Administrative Code) are deemed to be engaged in “business dealings” for the purposes of the CFA “during any period covered by a registration statement”. Admin. Code § 3-702(18). I understand that the lobbying provisions are described in detail in a declaration submitted by Arnie Wolsky.

II. Doing Business Database

32. The CFA requires the creation of a “Doing Business Database” that contains information concerning persons who are subject to the doing business provisions. Admin. Code § 3-702(20). This database is being created in three phases, consistent with timelines set forth in section 37 of Local Law 67.

33. Information concerning all of the individuals covered by the doing business provisions other than lobbyists is being collected by the relevant agencies using a “Doing Business Data Form.” These forms are required for new transactions covered by the “business dealings” definition; we have also collected forms from many entities that already had procurement contracts or other covered agreements in place at the time when the doing business provisions took effect.

34. Information concerning lobbyists is maintained by the City Clerk.

35. The first implementation phase, which went into effect on February 2, 2008, covers procurement contracts, concessions, franchises and lobbyists, with the exception of persons serving in a “senior managerial capacity.” For City agencies, some information concerning entities holding contracts, franchises or concessions was already included in two databases that pre-dated Local Law 34: the Vendor Information Exchange System (VENDEX), which contains information concerning vendors that have certain business transactions with the City, and the Financial Management System, which contains information concerning certain transactions with the City.

36. The second phase, which went into effect on July 31, 2008, covers bids and proposals for contracts, concessions and franchises; grants; economic development agreements;

contracts for the investment of pension funds; and senior managers for all covered transaction types.

37. The third phase, which is expected to go into effect on or before December 3, 2008, covers real property transactions and land use actions.

III. Data from the Doing Business Database

38. Attached as Exhibit A is a table listing all entities that were considered to have “business dealings” with the City as of June 30 based on having contracts, concessions or franchises with the City that are covered under the CFA. The first column reports the name of the organization. The second column indicates the type of organization (for example, corporation or LLC). The third column indicates whether it is non-profit or for-profit, with “N” meaning non-profit, “P” meaning for-profit, and a blank space meaning this information was not provided by the organization. The fourth column shows the total dollar value of any covered contracts, concessions and franchises used to determine whether the entity had “business dealings” with the City on June 30, 2008.²

39. The list includes 4,581 entities, of which 1,612 are recorded as non-profit organizations; 2,365 are recorded as for-profit organizations; and 604 have no indicator. A wide range of non-profits are represented, including the 116th Street Block Association, Inc., the Association to Benefit Children, the Brooklyn Botanic Garden Corporation, the Cathedral Church of St. John the Divine, the Institute for Labor and the Community, the Mount Sinai School of Medicine, New York University, the Southeast Bronx Neighborhood Center, Inc., The Legal Aid Society, United Way of New York City, the Urban Justice Center, and a number of

² Because the CFA considers an entity to have “business dealings” for one year after a transaction has ended, the total dollar value shown is not necessarily the value of the contracts, concessions or franchises held by the entity on June 30, 2008.

other health and social services providers, day care centers, youth programs, educational and cultural institutions, religious organizations, community organizations, advocacy organizations, and others.

40. There are several labor unions or union-affiliated entities that have procurement contracts with the City or an affiliated agency that are considered "business dealings" under the law: the United Federation of Teachers, which represents teachers employed by the City Department of Education; Local 28 Sheet Metal Workers ETER Fund; and DC-1707, Local-95 HSEWF.

41. The combined total value of the contracts, concessions and franchises listed in Exhibit A is approximately \$55 billion.

I declare under penalty of perjury that the foregoing is true and correct.

Dated: New York, New York
